So what is culture?

“Culture is an intense and invisible force there to perpetuate itself. Forever.”

Lou Tice
Pacific Institute
Culture is a direct representation of the groups' thinking. We behave and act in accordance to the truth as we perceive it to be.

“A long habit of not thinking a thing wrong gives it a superficial appearance of being right.”

Thomas Paine
• Culture is what happens when leaders are not around.
• It is how we do things around here.
• It is the unwritten rules and norms.

• Culture is how informal decisions get made on a day to day basis.
• It is how we act under pressure.
• The glue that holds the organization together.

A cold or defensive culture can cause people to NOT share their gifts and talents and they resist change. A warm or constructive culture has people wanting to give their best and improve on things.
“I believe in professional development but every time I send people away for education nothing ever changes.”

BC LTC Administrator

Leadership is essential.

Leadership is the ability to influence others and have them move toward a chosen vision. Without leadership nothing much ever changes.

“The first responsibility of a leader is to define reality. The last is to say thank you. In between the two, the leader must become a servant and a debtor. That sums up the progress of an artful leader.”

-Leadership is an Art
  Max Depree

Human Synergistics
"We can’t solve problems by using the same kind of thinking we used when we created them."

- Albert Einstein, Physicist

We also cannot use the same style of leadership that created the cold culture and expect a warm one because we have a different vision or strategy.

Eden Alternative®
Golden Rule
As Management does unto staff so shall staff do unto elders.
How do we create a **Constructive Culture** where change and improvement are possible? How do we create a place where people want to work?

*Our greatest danger in life is in permitting the urgent thing to crowd out the important.*

*Charles E. Hummel*
Sherbrooke’s culture change journey to an Intentional Culture that puts the elders first
